- **Integrations & APIs:** REST API, SOAP Web Services, BAPI, BADI, IDoc, Web Application Development (Laravel, PHP, MySQL)
- **Functional Integration:** Procurement (MM), Finance & Controlling (FI/CO), Sales & Distribution (SD), Order-to-Cash (O2C), Procure-to-Pay (P2P)
- **Tools & Utilities:** SE11, SE80, SE38, Performance Analysis, Code Optimization, Debugging, Transport Management, Postman

PROFESSIONAL EXPERIENCE

SPS Corporate — Surabaya, Indonesia

Senior SAP ABAP Developer | Jan 2025 – Present

- Architect and deliver an end-to-end Vendor Registration Portal integrated with SAP via custom REST APIs, automating vendor onboarding and master data creation.
- Develop procurement automation solutions including RFQ uploads, automated price updates, reservation processing, and batch Goods Receipt (MIGO).
- Design secure SAP integration services connecting external enterprise applications using REST and SOAP web services.
- Engineer automated bank export integration programs and custom financial reporting tools, improving monthly operational efficiency.
- Implement barcode label printing automation to optimize warehouse tracking and inventory operations.

Yayasan Badan Wakaf UII — Yogyakarta, Indonesia

SAP ABAP Developer | Jan 2022 – Jan 2025

- Architected and delivered custom SAP ABAP transaction using standard BAPIs to automate full Order-to-Cash (O2C) cycle (Sales Order, Goods Issue, Billing, FI Document).

- Delivered custom SAP solutions including ALV Reports, SmartForms, Dialog Programming, and BDC data migration tools.
- Integrated enterprise web applications using Laravel connected with SAP backend APIs to streamline operational and academic workflows.

PT Meka Adipratama — Semarang, Indonesia

SAP ABAP Developer | Jan 2019 – Dec 2022

- Optimized SAP reporting performance using CDS Views and AMDP, reducing report execution times by 40%.
- Architected automated Drop Shipment processing in ABAP, enabling automatic Purchase Order creation and Goods Receipt posting.
- Developed business-critical procurement automation programs to enhance transactional accuracy across purchasing and inventory processes.

PT Eclectic Consulting (Project: Pollux Property Jakarta) — Jakarta, Indonesia

SAP ABAP Developer | Jan 2015 – Dec 2016

- Developed operational and analytical SAP ABAP reports for real estate and property management requirements.
- Delivered customized SmartForms and print programs for official client billing and operational documents.

EARLY IT INFRASTRUCTURE EXPERIENCE

- **PT Indoprima Utama — IT Support Specialist (2016 – 2019):** Managed local network infrastructure, desktop hardware repairs, regular software updates, and database backup routines to guarantee zero data loss.
- **Klinik Estetika — IT Support Specialist (2013 – 2015):** Spearheaded deployment and configuration of Windows Server 2008 across 4 branch offices, configured network printer sharing, and supported ODBC/database reporting.
- **SMK N 11 Semarang — ICT Support Engineer (2011 – 2013):** Maintained 30+ laboratory computers, assembled custom hardware systems, configured network printer sharing, and managed national education database synchronization.

EDUCATION

Bachelor of Informatics Engineering

Universitas Stikubank (UNISBANK), Semarang, Indonesia | 2005 – 2009
